COMMITTEES GET DOWN TO WORK

Elaborate Arrangements Being Made for Entertainment of President Roosevelt.

CITIZENS' ESCORT PLANNED

Question of Invitations to Masonic Temple Luncheon Puzzling Comimttee.

Work of arranging the details for the celebration in honor of the visit of Pres-ident Roosevelt on October 18th is progressing satisfactorily, and with a contin-uance of the spirit of hearty co-operation alleady manifested, it is apparent that even in the brief time still intervening it will be possible to insure a popular demonstration rurely ever equaled in Vir-

demonstration rurely ever equaled in Virginia.

Meetings were held yesterday by the Council Committee, which has the official direction of the reception, and also by several of the citizens committees, which are co-operating with the municipal government. The Council Committee, which had adopted a policy of holding executive sessions, was engaged chiefly with matters of invitations to the Masonic Temple luncheon, at which the President will be the honored guest. This is rather a knotty problem. Only three hundred persons will be invited, while three thousand and more are eager for the opportunity to accept. The question of who will be favored and who not is sorely puzzling the committee. Typewritten lists were-furnished to the members yesterday for consideration, and at another meeting to be held to-night the matter will probably be finally settled. The engraved invitation cards were received last night from the printer, and will be submitted to the committee to-night for approval.

Holiday Committee.

At a meeting of the Holiday Committee yesterday afternoon the city was divided into four sections, Main Street in one direction and Ninth Street in the other, creating the grand divisions. Each of the four gentlemen present at the meeting, General Charles J. Anderson, Dr. McGuire Newton, Mr. Arthur B. Clarke and Mr. John G. Walker, assumed the responsibility for one of the quarters thus outlined. Every manufacturer, storekeeper or other employer of labor within a section will be com-

Advertising Committee.

The Advertising Committee met at 5.20 P. M. in the Chamber of Commerce and arranged to have the coming visit of Mr. Roosevelt extensively announced through cut the State. Envelope slips will be provided for the merchants of the city to be sent out in every business letter that will leave Richmond between this time and October 18th. A subcommittee was appointed to look after the reduced railroad rates to Richmond, and to see that the roads post circulars at all stations announcing these rates. An article for publication in the country papers of the State will be prepared at once.

A subcommittee, consisting of Mossrs, Rosenegk, Talley and Galeski will arrange to have all the bells in the city ring and all the steam-whistles blow a salute, beginning at the moment the President's train reaches the western portion of the city and continuing until the party reaches the Moin-Street Station.

The members of the Advertising Committee present at the meeting were Messrs, H. W. Wood, John C. Freeman, S. Galeski, J. L. Antrim, Williamson, Talley, A. R. Holderby, H. Lee Lorialne and Leroy L. Brown.

PRISONERS HAVE GONE ON GENERAL "HUNGER" STRIKE

ST. PETERSBURG. October 4.—"The Hunger Strike," which began October 2d in the women's department in one of the largest prisons here, devoted to the detention of political offenders, has become general. For three days all the inmates of the prison have been refusing to eat as a protest against the rough treatment of a female prisoner and the general administrative conditions in the prison.

Demand for Mi-o-na Stomach Tablets Continues to Increase.

Although Mi-o-na was introduced in Richmond but a short time ago, it is to-day outselling all other medicines for the cure of indigestion and stomach troubles.

Mi-o-na gives such health and strength to the weakest stomach that all the food is readily converted sto mutrition, so that it gives nourishment and health to the whole system. In this way nervousness and sleeplessness are cured; head-ness and rheumatic pains are prevented, and there will be no more appetite, distress after eating. Mi-o-na costs but 50 cents a box. If you cannot obtain Mi-o-na of your druggist, it will be sent by mail post-paid on receipt of price. Sample sufficient to show its value will be forwarded on request. The R. T. Both Co. Ithaca, N. One of the chief features of the President's reception here was to have been a banquet, at which the representative citizens of Louisiana were to have gathered, and the President was to have been afforded an opportunity to speak freely. Advices from Washington are that the programme arranged contemplates only a day's visit. An effort will be made to persuade him to extend his stay, in order that he may attend the banquet.

New cases, 10; total to date, 185; deaths, 1; total, 32; cases discharged, 72; under treatment, 81.

A sensation was created this afternoon by the arrest of Dr. J. S. Herron for refusal to allow a sanitary officer to inspect his house. Dr. Herron is one of the oldest physicians in the city, and by many is considered an expert on yellow fever. The fever situation to-day, while practically unchanged so far as new cases are concerned, shows some improvement in the number of deaths. The heavy rains of the past week have careful any breeding places for the mosquito all over the city. The work of draining pools and distributing oil continues. Among the new cases is J. FINE EVENTS YESTERDAY

An Accident After the Show Which Put Many in Great Peril.

(Special from a Staff Correspondent.)
LYNCHBURG, VA., October 4.—When
the bugle sounded for the first class of
the second night of the Horse Show, a
crowd at Heast four times as large as the
opening night greeted the ovent with
cheers. The band had just finished playing that inspiring air "There'll Be a Hot

and society folk eagerly awaited the

awards.

Again it was a duel to the death between the stables of Mr. Dunlop and Mr. Garber, for in every harness class their entries went after each other hotly. Three jump classes and an exhibition high jump furnished thrills a plenty to satisfy the most exacting, and the park hack classes and harness events were well contested.

well contested.

The night was a great success, both in regards to the crowd and the excellence of the performances. "Rall birds," three deep, surrounded the arena, and "passed the time of night" with friend and foe alike. Fourteen readsters filed into the ring for the opening event, and so fast and furious was the pace that the judges very wisely divided the class and had it shown in two sections.

Dunion and Garber

Dunlop and Garber.

Messrs. Pinckney, Craig and Fletcher, of the harness judges, got up and drove several of the entries, so closely was the class contested. Blue went to Mr. W. M. Carroll's "Dedaration," driven by Mr. Garber, and four to the same owner, with Lady Winner, of the local runabout class last night. Small harness horses brought out four entries, two from Mr. Dunlop's stable; one from Mr. Garber's, and Mr. Howard's "Dr. Reid."

The atmosphere was simply sizzling with excitement as the crowd cheered first Dunlon and then Garber. Mr. Courtney Suith. looking as though he had stepped out of a bandbox, drove "Watch Me" with almost professional skill, while Mr. Garber sent "Airs" slong in a dashing way that caught the gallery.

Again the judges got up and drove while the crowd grew curiously silent, a great shout went up as the blue went to Mr. Dunlop's "Watch Me," with red to Mr. Garber, making the score two to one in wind in the Garber-Dunlop contest. Dunlop and Garber.

to Mr. Garber, making the score two to one in wins in the Garber-Dunlop contest.

Nine park hacks next took possession of the ring, the class called out a good old of green ones, there being not a really bad one in the lot. In changing the leads, a much discussed question, only three made fair performances.

Blue went to Mrs. Allen Potts' chestnut three-year-old "King of Hearts"; red to Mr. Julian Morris' "Morrissin!."

In the pairs of large harness horses again Garber and Dunlop fought it out, they having the only entries. Mr. Garber drove "Charming" and "Alarming." and Mr. Smith drove Mr. Dunlor's "Derby" and "Superior." Mr. Garber sent his pair, shown before in a drag, at a dashing clip, while Mr. Smith, in a Stanhope phacton, showed only park pace. The crowd was generous in their applause when blue went to Mr. Dunlop, but when the red was awarded to Mr. Garber a perfect storm of cheers shook the building, which must have in a measure compensated him for his defeat. The score now is Dunlop three blues and Garler one, in harness classes.

The local park hacks brought out a field of five, amonst them being "Carry," well-ridden by Mrs. De Gontard. A local riding master. E. N. THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

in Preserving Heatth and Heatty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

hour and a half shortly after noon and orippled the service during the entire afternoon.

More beautiful weather could not have been asked for, but a much larger crowd would have been present if the cars could have carried the crowds that lined the streets, awaiting transportation. In grand stand was filled when the bell was sounded for the first race by Starter W. J. Carter, of Manchester, and the races were holly contested from start to finish. The free attractions between the heats, which were given from an elevated stage in front of the grand stand, delighted the thousands presont.

The judgit was completed in the department during the day, and thousands of persons visited the crowded stock and poultry exhibits. The magnificent display of fruit and flowers, which is under the direction of Hon. George E. Murrell, who had charge of the Virginia display at the recent World's Fair, has created no end of favorable comment, many persons ciaming it to be the best display of its character ever gotten together in Virginia.

all, but simply absorbs the gases and impurities always present in the stomach and intestines and curries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onlons and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and howels; it disinfects the mouth and throat from the poison of cattarth.

All druggists sell charcoal in one form another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antisepties in tablet form or rather in the form of large, pleasant lasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, swell-represented the continued use, but on the contary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advises Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexien and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patient preparation, yet I believe i get more and better charge and party of the collary charge and party of the collary charge that an any of the ordinary charcoal tabendary heart and the collary charge in the proposition of the grand stand was filled when the believe when the believe in the control and minently was sounded for the first and stand was filled when the believe the liver is greatly send the control and threat in the control was sounded for the first and stand was filled when the believe the liver was a natural and immention with the despendence of the tro
